

## WILCOX MEMORIAL PARK TRAILS

The trail system at Wilcox Park is comprised of roughly 11-miles of hiking trails. These trails wander through the quieter parts of the park including fields, forests, overlooks, and are open to walkers, hikers, disc golfers, runners, and leashed dogs. The trail surface is mostly natural and is rocky / steep in some areas. Please be careful while using the trails.

Disc golfers share the trails so keep watch for flying discs. Wildlife is abundant with deer, turkeys, woodchucks, different species of birds, and other animal habitats. Ticks and poison ivy are also present, so be aware of where you walk and always check for ticks after exiting the trails.

Park Staff work hard to keep the trails suitable for use, but storms and other natural events sometimes leave the trails with obstacles and challenges that you will encounter before we do. Please report any problems you see on the trails to park staff.

IN CASE OF EMERGENCY DIAL 911

Please check park closing time before starting on the trail. Allow sufficient time to exit the park before it closes. Wilcox Park is patrolled by Park Staff and by local law enforcement.

Camping reservations available Memorial Day-Labor Day (pre-registration required).

Thank you for visiting and for your cooperation.
